an "up close & personal experience". Ask questions, meet & greet the horses & their rider. Learn about safe & proper horse etiquette when encountering a horse on the trail or Forbidden Drive, how to safely approach a horse.

Horses have been a part of our country for centuries, man has ridden them into battle; used them for plowing fields to put food on the table and earn a living; the Lenape Indians who lived in the Wissahickon Valley relied solely on the horse for all their transportation needs; Philadelphia had one of the finest Mounted Patrols in the country & they were hard to beat in competition.
